Motoz tyres go “There and Back” at the 2007 Finke Desert Race.

Regarded as the toughest off-road race in the Southern Hemisphere, the Finke desert race, has a reputation as a tyre destroyer.

Motoz Product Manager, Darryl Savory, attended the race, to talk to competitors, and see first hand how the tyres performed.

Local Finke legend, and Desert Edge Motorcycles dealer, Michael Vroom, commented that he was amazed that Motoz Tractionator tyres will go more than 2 runs to Finke and back, without wearing out.

Desert Edge nearly sold out of tyres before the race, with over 50 bikes choosing Motoz.

Motoz would like to thank all racers who used our tyres, and we would like to

congratulate
